

# NIACINAMIDE, ZINC & PREBIOTIC SPRAY & TONER

A water thin product designed as a toner, but could be used as a spray for blemishes in those hard to reach places (bacne). Although it looks like water, it is packed with beneficial soothing agents like allantoin, betaine and aloe vera, and hydrating ingredients like glycerin & sodium PCA, one of skins natural moisturising factors.

## NIACINAMIDE

A form of Vitamin B, beneficial to almost any skin type. Works to even skin tone, reduce pore size and repair UV damage.

## ZINC PCA

A zinc salt combined with L-PCA, a natural moisturising factor, which helps control sebum production. The zinc component may help limit the growth of undesirable bacteria which cause blemishes.

## PREBIOTIC

Works to normalise the skin microbiome and boost the skin barrier after disruption from pollution, light, and chemicals.

## DIRECTIONS FOR USE

As a toner, apply to a cotton wool ball or pad, and apply to skin, avoiding the delicate eye area. For body use, spray onto skin, then rub gently until absorbed.

### Warnings:

For external use only. Avoid contact with eyes. Keep out of the reach of children. Do not store in direct sunlight. Avoid using along with exfoliating acids or Vitamin C in your routine.

## COMBATS

Blemishes, hyperpigmentation, open pores and oily skin

## BENEFITS

Hydrate, nourish, soothe.

## SKIN TYPE

All Skin Types

## ETHICAL

Cruelty Free  
97% Natural  
Vegan Friendly

## PRODUCT ADDITION

Water based extracts.  
Fragrance additions would need additional development work.
