

NIACINAMIDE, ZINC & PREBIOTIC WASH

A gentle glucoside based wash which should clean without excess stripping of oil. Also contains aloe vera for its soothing, skin conditioning, nourishing and moisturising properties.

NIACINAMIDE

A form of Vitamin B, beneficial to almost any skin type. Works to even skin tone, reduce pore size and repair UV damage.

ZINC PCA

A zinc salt combined with L-PCA, a natural moisturising factor, which helps control sebum production. The zinc component may help limit the growth of undesirable bacteria which cause blemishes.

PREBIOTIC

Works to normalise the skin microbiome and boost the skin barrier after disruption from pollution, light, and chemicals.

DIRECTIONS FOR USE

Apply to wet face, then massage to lather, and then rinse away.

Warnings:

For external use only. Avoid contact with eyes. Keep out of the reach of children. Do not store in direct sunlight. Avoid using along with exfoliating acids or Vitamin C in your routine.

COMBATS

Blemishes, hyperpigmentation, open pores and oily skin

BENEFITS

Nourishing, Moisturising

SKIN TYPE

All Skin Types
